

## To the moon, Alice.

That's how high you can stack gas cans filled with the fuel Americans saved by riding public transportation a record 10.1 billion times last year – the highest ridership in 49 years. Saving 1.4 billion gallons of gasoline annually is not just good news, it's good public policy.

By supporting increased investment and incentives for public transportation, you're helping create an energy-independent America of the future.
